PROFESSIONAL SUMMARY

Detail-oriented Full Stack Developer with hands-on internship experience at Ucode Software Labs and Entri Elevate. Skilled in Python, Django, React.js, Next.js, Redux and PostgreSQL. Proven ability to build scalable, responsive web applications with JWT authentication and RESTful APIs. Experienced in developing ML-based systems, full-stack eCommerce platforms and CRM applications. Strong foundation in both frontend and backend technologies with a problem-solving mindset and passion for clean, maintainable code.

EXPERIENCE

Full Stack Developer Intern (Python / React / Next.js)

Nov 2025 – May 2026

Ucode Software Labs | Remote

- Built full-stack web applications using Python, Django REST Framework, React.js and Next.js with TypeScript.
- Developed a complete CRM application with Lead, Deal, Ticket and Company management modules.
- Implemented JWT authentication with role-based access control and user profile management.
- Integrated Twilio for phone call functionality and Nodemailer for production email services.
- Built global search, toast notifications, rich text editor, activity timeline and sales report features.
- Used PostgreSQL with Redux for state management and Sequelize ORM for database operations.

Python Programming Intern

2024 – 2025

Entri Elevate, NSDC | Remote

- Completed comprehensive training in Python programming, OOP, algorithms and data structures.
- Built RESTful APIs and full-stack web applications using Django framework.
- Integrated databases using MySQL and SQLite in real-world project implementations.
- Applied data analysis using Python libraries including pandas and NumPy.

PROJECTS

CRM Application — Customer Relationship Management | Next.js, TypeScript, Python/Django, PostgreSQL, Redux

GitHub: [https://github.com/Asna93/CRM_App]

- Developed full-featured CRM with Lead, Deal, Ticket and Company management modules using Next.js and TypeScript.
- Implemented lead lifecycle management — creation, status tracking and conversion to deals pipeline.
- Built deal pipeline with configurable stages: Proposal Sent, Negotiation, Closed Won, Closed Lost.
- Integrated Twilio for phone calls and Nodemailer for email services with attachment support.
- Added rich text editor, global search, toast notifications, activity timeline and overdue task highlighting.

SHOP.CO — Full Stack eCommerce Application | React, Django, PostgreSQL, Redux, JWT

GitHub: [<https://github.com/Asna93/Shop.Co>]

- Built complete eCommerce platform matching Figma design with React.js frontend and Django REST Framework backend.
- Implemented JWT authentication with login, registration and protected routes using Redux state management.
- Developed RESTful APIs for products, cart, orders and user authentication with PostgreSQL database.
- Built cart system with add/remove functionality, checkout flow and order confirmation pages.
- Implemented product filtering by category, price, size and dress style with sorting functionality.
- Designed fully responsive UI with mobile hamburger menu matching Figma design specifications.

Homesworth — House Price Prediction Web App | Python, Django, scikit-learn, pandas, NumPy, Stripe.

GitHub: [<https://github.com/Asna93/Homesworth>]

- Built full-stack web application predicting house prices using machine learning algorithms (scikit-learn).
- Integrated Stripe payment gateway for credit-based usage with dynamic user profile management.
- Developed responsive frontend with real-time credit balance tracking and ML data preprocessing pipelines.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux, Bootstrap, Tailwind CSS, Responsive UI Design

Backend: Django, Django REST Framework (DRF), Node.js, RESTful APIs

Databases: PostgreSQL, MySQL, SQLite

Tools & Platforms: Git, GitHub, VS Code, Postman, Stripe, Twilio, Nodemailer

ML / Data: scikit-learn, pandas, NumPy

Soft Skills: Team Collaboration, Problem-Solving, Adaptability, Time Management

EDUCATION

Bachelor of Computer Applications (BCA)

JDT College of Arts and Science | Calicut, Kerala, India

CERTIFICATIONS

- Python & Django Programming — Entri Elevate, NSDC (2025)
- Python Programming — Illinois Tech USA (2024)
- NSDC Python Programming Certification
